SALES UPDATE December 2004

Product Application Update

This information relays changes related to product design or enhancements, and informs you of installation or fitment issues that are being resolved. These changes are occurring as an Engineering Change Order (ECO) "running change" to existing part numbers, and are typically a result of changes in the vehicle's design or trim packages. To inform Westin of fitment or installation issues, please contact Emilio Gomez, our Product Coordinator & Technical Support Rep via email at sales/marketing@westinautomotive.com, or by phone at (800) 345-8476 ext. 457.

Please make the changes listed below in your 2005 Catalog/Jobber/WD. To consolidate part numbers and match step bar configurations, the step bar assemblies for the Silverado/Sierra Regular & Extended Cabs in both Light Duty and Heavy Duty applications have been revised by removing all front/rear support braces. A center mount will be added to the extended cab models. This change will result in fewer top level numbers, reduced from 5 to 2 SKU's. The substituted part numbers are provided below.

Product Application Update

OLD PART #	CURRENT DESCRIPTION	SUPERCEDED BY
25-1390	99-00 CHEVY/GMC Silverado/Sierra 1500/3500LD - Extended Cab (3dr)	25-1680
