PRESS RELEASE

NOVEMBER 2007

PROJECT VEHICLE

24/7

2007 Toyota Tundra CrewMax 4X4

With the everyday owner in mind, this project vehicle is versatile in design and style. Whatever the task on any given day, its ready! Business meeting? All set. Night out? Looking good. Weekend move? No problem. So whatever it might be, this truck is ready "24/7". The "24/7" features chromed accents showcased up-front with Westin's Full Replacement Mesh Grille and Platinum Oval Steps on the side. It rolls in sleek mobility upon ZYOXX wheels with color accents on TOYO tires. It's bright glow charm paint changes from a deep red to a rich orange with elusive distinction. The striped hood hints at the racing heart within and the Banks Engineering Monster Exhaust proves it. See our sponsor list for details.
